## ABOUT ME

Experienced Python Django Developer with a strong background in Python and Django Rest Framework. Skilled in developing and maintaining web applications. Proficient in database management and API integration. Proven ability to deliver high-quality software solutions. Adept at collaborating with cross-functional teams to achieve project goals efficiently

## WORK EXPERIENCE

### Senior Software Engineer

*Techversant Infotech*

*May 2023-Present*

- Led the backend development for multiple AI-based projects, utilizing Python-Django to architect and implement robust solutions
- Directed all stages of project development, from conception to deployment, ensuring timely delivery and adherence to quality standards
- Developed robust RESTful APIs to facilitate seamless communication between frontend and backend systems, optimizing for performance and scalability.
- Acted as the primary liaison between clients and the development team, gathering requirements, providing updates, and addressing any issues or concerns promptly

### Software Engineer

*Transight System*

*Sep 2021-May 2023*

- Worked extensively in a cloud telephony environment, specializing in the development of calling solutions such as IVR, Queue, and Autocall. Leveraged Python Django as the backend framework and Angular for frontend development. Additionally, utilized Flask to establish communication between the Django server and Asterisk server, enhancing the functionality and integration of the telephony system.

## PERSONAL DATA

---

Date of birth 12-05-1995  
Sex Female  
Nationality Indian  
Religion Christian  
Marital Status Single  
Blood Group A+ve  
Age 29
